Set yourself up for success

1

Add sessions to your calendar

Once you've registered, use the calendar tool to add every session — blocking the time makes you far more likely to show up.

2

Post your plan on Slack

Tell your cohort which workshops you picked — a public plan makes it easier to follow through.

3

Switch slots — don't skip

Life gets busy. If something comes up, reschedule to another session — a switch beats a miss.

4

Front-load Career Essentials (CORE)

Aim for all 12, but if you are short on time, complete the orange-marked CORE workshops first.

Your commitment

Fill this in — making it concrete makes it happen.

My goal: I'll complete _____ workshops this summer.

I'll tell _____ about this commitment.

If something comes up, I'll _____ (swap, not skip).

My backup plan: _____
